

SENTRYPODS®

Protective Overt Deployable Surveillance

TRUSTED SURVEILLANCE SOLUTIONS FOR RAPID PROTECTION

Plug the unit in -
no configuration
required

Battery backup in
the event of power
loss

Mobile application
for flexible
deployments

PTZ camera with
zoom functionality
for 360° coverage

Wifi accessibility

SentryPODS® (Protective Overt Deployable Surveillance) are the world's most advanced remote surveillance solution. Developed by former military members, SentryPODS® are engineered to function much like tactical operators and gain access to video/resources within 3-5 minutes, with the primary focus being autonomous surveillance. The need for this technology obviously spans many industries as SentryPODS® run the gamut from tactical to technical.

SentryPODS® are the preferred choice for perimeter security for many reasons. They contain intelligence at the edge, as well as built in redundancy for network/power failover. In the event of mayhem or local service outages, SentryPODS® seamlessly failover to an alternative network (in most cases, LTE) and internal batteries for independent functionality.

Wherever critical infrastructure exists, SentryPODS® provide a superior level of protection because of their autonomy.

IT'S ALL ABOUT SPEED AND MOBILITY!

SentryPODS® Scout

- Hot-swappable batteries and components
- Rapid power-up and accessibility
- Includes RIK (Rapid Installation Kit) for fast mounting
- 10x optical zoom
- Continuous 360° pan
- Axis Zipstream
- Three scene profiles
- Two-way audio and I/O
- GPS for location tracking

SentryPODS® Eagle

- Offers Continuous 360° View
- Hot-swappable batteries and components
- Rapid power-up and accessibility
- Automatically removable infrared-cut filter
- Camera Angle Adjustments: Pan ±90°, tilt +25 to +95°, rotation -5 to +95°, twist ±20°
- Includes RIK (Rapid Installation Kit) for fast mounting
- Three scene profiles
- Two-way audio and I/O
- GPS for location tracking

SentryPODS® Ranger

- Hot-swappable batteries and components
- Rapid power-up and accessibility
- Includes RIK (Rapid Installation Kit) for fast mounting
- Long distance 30X zoom
- Forensic capture
- 360° pan
- Auto-tracking
- Laser focus
- GPS for location tracking

SentryPODS® Hunter

- Hot-swappable batteries and components
- Rapid power-up and accessibility
- Includes RIK (Rapid Installation Kit) for fast mounting
- Long distance 30X zoom
- Forensic capture
- 360° pan
- Long-range OptimizedIR (200 m/656 ft range)
- Auto-tracking
- GPS for location tracking

SentryPODS® Recon

- Hot-swappable batteries and components
- Rapid power-up and accessibility
- Includes RIK (Rapid Installation Kit) for fast mounting
- Long distance 30X zoom
- Forensic capture
- 360° pan
- Auto-tracking
- Laser focus
- GPS for location tracking

SentryPODS® BlackOps

- Hot-swappable batteries and components
- Rapid power-up and accessibility
- Installed in a concealable container
- Streams 1080p/HDTV 720p videos from four sensor units simultaneously
- Quad view stream
- Axis' Zipstream technology
- Two built-in SD card slots
- GPS for location tracking
