

# SENTRYPODS

Protective Overt Deployable Surveillance

## Protect Your Assets Anywhere

### Deploy Anywhere

No power on the property? No Problem. The Chariot Surveillance Trailer has no need for a gas-powered generator.

### Easily Guard & Protect

- ✓ Pre-configured cameras are ready to be viewed on any device the moment you power up.
- ✓ Does not require gas-powered generators to monitor remote areas for continued surveillance.
- ✓ Pull-behind solar surveillance trailers offer surveillance solutions that are easy to move from location to location.
- ✓ Your perimeter is monitored 24/7 with virtual fencing capabilities and motion alert capabilities.

### SentryPODS' Chariot Solar Trailer

#### Solar Powered

Requires no power infrastructure to deploy. No gas-powered generators are needed. These pull-behind solar surveillance trailers have battery storage for cloudy days.

#### Rapidly Deployable

Our solar trailer surveillance solutions can be setup within 3-5 minutes with rapid deployment and eliminate the dependency on cables.

#### Cellular Connectivity

Achieving two-way communication. Preconfigured surveillance cameras connect to your VMS wirelessly.
